About the Poster Session:

Engineering students will present posters describing their clinical immersion experience and detailing one or more unmet clinical need(s) with potential engineering solutions they identified during their clinical immersion experience.

This year’s clinical partners include:

- Helen F. Graham Cancer Center at Christiana Care
- The Rothman Institute
- Nemours/Al DuPont Hospital for Children
- Independence Prosthetics-Orthotics
- University of Delaware’s Physical Therapy Clinic
- Penn Vet’s New Bolton Center

Highlights:

- Learn about the students’ diverse clinical immersion experiences
- Understand unmet clinical needs with potential engineering solutions
- Network with clinicians, biomedical researchers, faculty and students

All are invited to attend!
