Nikodimos Gebreselassie, PhD, an Associate Principal Scientist at Merck & Co., Inc. in Kenilworth, NJ, will give a short talk and then answer questions from the CBI Community about his experiences and work with Merck. If you would like to meet with him privately, please let Stephanie know.

Dr. Gebreselassie received his PhD in Chemical Engineering from the University of Delaware, and was a CBI Fellow while at UD. His Thesis was: Developed metabolic flux analysis tool for multi-microorganism systems. He received his B.S. in Chemical Engineering from University of Maryland Baltimore County

Dr. Gebreselassie has been with Merck for 3.5 years . His role at Merck includes the following:

- Develop, characterize and scale up manufacturing process for vaccines in late-stage clinical development
- Oversee technology transfer to manufacturing process
