Publishing your research is a necessary activity for your future career. We will discuss the mechanisms and process of submission, where to target publications, how to move forward from paper rejections, and other issues with respect to publishing your research.

BIO

Lori Pollock is a Professor in the Department of Computer and Information Sciences at the University of Delaware. She earned her Ph.D. and M.S. in Computer Science at the University of Pittsburgh, and her B.S. in Computer Science and Economics at Allegheny College in 1981. Her research currently focuses on program analysis for building better software maintenance tools, optimizing compilers for modern computer architectures, and software testing. She currently serves on an Associate Editor for the ACM Transactions on Software Engineering and Methodology (TOSEM). She was awarded the University of Delaware’s Excellence in Teaching Award in 2001. Lori Pollock has actively worked for improving the participation of women and other underrepresented groups in computer science for many years. She was awarded the University of Delaware’s E. A. Trabant Award for Women’s Equity in 2004. She serves on the Executive Board of the Computing Research Association’s Committee on the Status of Women in Computing (CRA-W), which was honored with the National Science Board’s 2005 Public Service Award to an organization for increasing the public understanding of science or engineering.
