The **ONLY** CAATE Accredited – Athletic Training Education Program in the State of Delaware

**HIGHLIGHTS**

One of the oldest accredited athletic training programs in the country!

Recognized as a leader in producing high quality CERTIFIED athletic trainers!

1\textsuperscript{st} time pass rate on the Board of Certification (BOC) examination for athletic trainers above the national average! (95.2% 2009-2016 test years)

UD’s ATEP program is universally diverse and academically sound.

UD’s ATEP students interact with graduate students (masters and doctoral level) on many occasions in academic, clinical, and RESEARCH settings.

Cadaver anatomy (KAAP420 – 5 cr. hrs.) as a senior!

Athletic Training is a top ten occupation for the greatest growth potential (Wall Street Journal)
State-of-the-Art Athletic Training Teaching Laboratory for “hands-on” learning!

National Football League (NFL) and other professional internship connections!

A dedicated faculty and staff that challenge students in both classroom and clinical settings!

Highly competitive and selective admissions process!

A “hands-on” first year experience as an Athletic Training Interest (ATI) student!

Excellent clinical opportunities involving UD athletics, area high schools, local sports medicine clinics, and general medical rotations with a variety of physician specialities.

Innovative classroom and clinical experiences that incorporate the latest in Evidence-Based Medicine!

Students wishing to pursue careers in other medical professions (physical therapy, physician assistant, medical doctor, chiropractic, etc...) can utilize the ATEP to satisfy many of the necessary prerequisite courses for admission; while at the same time garner VALUABLE clinical experience.
