

Women's Cardiovascular Research Laboratory

COLLEGE OF HEALTH SCIENCES

Advancing research in women's cardiovascular health.

We are researching how heart disease affects women's health by examining blood vessel function in Hypertensive Women.

You may be able to participate if you are a female

- Between the ages of **50-70 years** old
- Maintains normal weight (BMI under 35)
- *Has elevated or high blood pressure*
- No history of heart disease or diabetes
- Not using an extended cycle pill or IUD
- Not using tobacco

Help us complete our research by participating in one of our studies
