COMMUNICATION Sciences & Disorders

Open Rank Faculty Positions

The newly established Communication Sciences and Disorders (CSCD) program in the College of Health Sciences at the University of Delaware invites applications for 5 tenure-track faculty positions (open rank). We seek creative, productive individuals with a strong commitment to advancing basic, translational, and clinical research in the areas of phonological disorders, motor speech disorders, voice and resonance disorders, language disorders (children or adult), and swallowing disorders. The successful candidates will maintain an active, funded program of research, mentor PhD and master’s students, and teach in the professional MA program in Speech-Language Pathology. Opportunities are available for secondary appointments across the university, interdisciplinary teaching, and collaborative research. Applicants must possess a Ph.D. in Communication Sciences and Disorders or closely related area.

GENERAL INFORMATION: The CSCD program and associated clinic will be housed in the Health Sciences Complex (pictured above), an exciting new 100,000 sq. ft. clinical research facility that, in addition to numerous research laboratories, includes the College’s physical therapy clinic and primary care clinic. State-of-the-art facilities for the CSCD program are currently under construction.

Ranked second, nationally, among the best places to study the health professions by College Factual, the College of Health Sciences is a thriving academic unit of over 3,000 undergraduate and graduate students and 100 faculty with outstanding research and teaching facilities. The College also includes the departments of Behavioral Health and Nutrition, Kinesiology and Applied Physiology, Medical Laboratory Sciences, Physical Therapy, and the School of Nursing. With annual research expenditures in excess of $13 million, the college currently houses several large, interdisciplinary grants with significant funding from the NIH and DoD. Excellent research teams exist in the college in the areas of neurological disorders, cardiovascular health, and other chronic disease conditions, as well as biomechanics and rehabilitation science. There are also strong programs at UD in linguistics and cognitive sciences, neuroscience, biology, psychology, and biomedical engineering, as well as numerous collaborative linkages with our college’s clinical partners.

Founded in 1743, the University of Delaware combines tradition and innovation, offering students a rich heritage along with the latest in instructional and research technology. Located in scenic Newark, Delaware, within 2 hours of New York, Philadelphia, Baltimore, and Washington, D.C., the University is a Land Grant, Sea Grant, Space Grant, and Carnegie Research University (with very high research activity, a designation accorded to fewer than 3% of degree-granting institutions in the U.S.), and with external funding exceeding $200 million. A state-assisted, privately governed institution, the University enrolls approximately 17,000 undergraduates and 4,000 graduate students, with average SAT scores of 1817 and an average GPA of 3.62 for entering freshmen in 2014.

SALARY AND BENEFITS: Compensation packages are competitive and commensurate with experience and qualifications. Faculty at the University have regularly received annual cost-of-living and merit salary increases and the benefits package is one of the best in the nation. Relocation and start-up funds are available. Appointment date negotiable; classes begin in Fall 2016.

TO APPLY: Review of applications will begin on October 1, 2015 and will continue until positions are filled. Nominations and expressions of interest will be held in confidence and references will be contacted only with the candidate’s permission. Applicants should upload a letter of application, curriculum vitae, and contact information for three references (all in one document) at http://www.udel.edu/udjobs/. The letter of application and CV will be shared with the search committee. For inquiries, contact: Aquiles Iglesias, Ph.D., Search Committee Chair, 302-831-4784, aquiles@udel.edu.
