## Honors Enrichment Funds

[Honors enrichment funds](#) are available to Honors College students to assist with activities related to their academic or professional pursuits. These funds are available thanks to the generosity of donors to the Honors College. Students can apply for up to \$3,000 for activities related to their academic or professional pursuits.

This summer, **Caroline Bowers** (left, '24) used enrichment funds to help with housing costs during her unpaid internship working as an aquarist and education intern for Save The Bay's Exploration Center and Aquarium in Newport, R.I. Caroline's day-to-day activities included prepping food and feeding animals, and cleaning and changing the water in the tanks. She also interacted with the public on a daily basis and assisted with the release of animals from the aquarium as well as the capture of new animals.

**Charlotte Gottilla** (center, '24) used enrichment funds to help towards a trip to Malawi to drill wells with UD's Engineers Without Borders group, meeting with local villages to do surveys and work out logistics for construction and community engagement.

**Mantra Yang** (right, '24) used enrichment funds to help with housing costs during her internship with Warner Bros. Discovery in Miami, FL. As the Graphics and Media intern for the Discovery Family Channel, she worked on programming, editing television clips for social media, and also created and co-edited a promotional video for a show.
