

UNIVERSITY OF DELAWARE
COMMUNICATION SCIENCES AND DISORDERS
VOICE LAB

You are invited to participate in a pediatric voice study

The ***University of Delaware and the Nemours/A.I. duPont Hospital for Children*** are conducting a study on children and voice therapy.

Your child might be eligible to participate if he/she:

- Is between 4-11 years old
- Has a hoarse voice
- Is typically developing
- Has a normal hearing
- Is fluent in English
- Has computer and internet access

Children will receive free headphones with an integrated microphone for their participation in the study!

Use the email address provided below
